

UKKB MOUUK — 34 Expert Knowledge Modules

MOUUK is the expert-knowledge layer. The 34 modules do **not** own source PDFs.

SKBUK is the source-of-truth document store and governance layer; MOUUK receives references/manifests from SKBUK.

MOUUK-0033	Economic and Financial Standing	Expert on supplier economic and financial standing	financial assessment, insurance, evidence, proportionality	legislation + official guidance
MOUUK-0034	Insurance and	Expert on insurance and	insurance requirements, policy compliance,	legislation + official guidance

Code	Module	Meaning / responsibility	Key properties	Primary evidence
	Mandatory Policies	mandatory procurement policies	evidence	

Processing boundary

MOUUK receives authoritative references first. The current ingestion phase is **raw PDF only**:

discover -> validate -> store in SKBUK -> provenance/audit -> deliver reference manifest -> MOUUK

Only after the raw corpus is accepted should the next phase run:

PDF -> extract -> normalize -> chunk -> embed -> retrieval

No MOUUK module may silently replace, modify, or become the canonical owner of the original PDF.
